

Beauty IN is set up for your convenience and comfort.

RELAXING AT HOME and having **beauty treatments** is considered a **true luxury** and Beauty IN offers the highest care and individual approach.

We offer a wide range of beauty treatments and a therapist can be contacted directly, no agency fees involved. In addition to **Beauty IN**, the website introduces ['My Network'](#) which is another way of being introduced to

professionals

with slightly different skills which may be of interest too. For example: hairdressers, make-up artists and masseuses. Each of us offers

the very best

in our trade.

Our aim is to make you feel relaxed; look wonderful; and happy!

...The only **regret** you will have is that you did not discover **Beauty IN** sooner!
